

27° INTERNATIONAL CONFERENCE ON YEAST GENETICS AND MOLECULAR BIOLOGY

YEAST 2015

Levico Terme (Trento, Italy) September 7-12, 2015

The 2015 event is Co-organized by the Italian and the Ukrainian Scientific Communities

Plenary Sessions:

- DNA replication and cell cycle
- Gene expression: from epigenetic regulation to mRNA stability
- Growth control and metabolism
- Mutagenesis: DNA damage and repair
- Autophagy, cell death and ageing
- Yeast and industrial biotechnology
- Yeast as a model for human diseases and drug testing
- Interplay and dynamic of organelles

Special Sessions

- Towards a molecular yeast whole-cell model
- Yeast Evolutionary Ecological Genomics (EXPO 2015 sponsored)

LEVICO TERME: Alpine lake venue, in the heart of the Italian Alps, famous for the curative properties of the thermal water appreciated by the Habsburg Family.
